Note: 1. The annual and monthly figures are cumulative figures from the beginning of the year to the end of the given month.

2. The premium income indicated in this table represents written premiums collected during the specified period (including expected losses, the business expenses of insurers, contribution to the Stabilization Fund, overhead associated with actuarial calculation of rates, research and development, information inquiry services, information transmission and other expenses necessary to ensure the soundness of this insurance. However, this does not include contribution to the Compensation Fund.)

3. Prior to December 2009, the statistical data for the number of policies in force indicated in this table was calculated based on the statistical cutoff month. Starting from January 2010, the calculation is based on the statistical cutoff date, which is also the last day of each month.

4. Since 2007 the figures in this column are liability-based paid losses, which are calculated the amount of the automobiles, motorcycles and mini electric two-wheel vehicles claims paid for the year.

5. Mini electric two-wheel vehicles will be added from November 2022.
